

#### MAJOR GENERAL JOHN P. JOLLY THE ADJUTANT GENERAL

# THE ADJUTANT GENERAL BANTA FE

1 November 1962

The Honorable Edwin L. Mechem Governor of New Mexico and Commander-in-Chief, New Mexico National Guard Santa Fe, New Mexico

Sir:

Submitted herewith is an annual report of the Adjutant General of New Mexico pertaining to the administration of this Department for Fiscal Year 1962.

To perform its State mission in the protection of life and property, and to preserve the peace and order, the New Mexico National Guard realizes its responsibility to maintain an efficient, well trained, well equipped force, ready for use by the State in any emergency that might arise.

Our training objectives are being reached, and an increasing number of our units are being rated as Excellent and Superior. The New Mexico National Guard continues to take full advantage of the educational opportunities offered by the Army and Air Force by filling its quotas to the technical and service schools operated by those agencies. An increasing number of Guardsmen volunteering for six months basic training is supplying all of our units with basically trained personnel. The basic training given by the Air Force also increases the efficiency of our Air National Guard.

Our need for improved armory facilities and Air Guard facilities has not yet been fully met, but full advantage has been taken of the funds supplied by the State, Federal Government, and local communities. Continued advantages will be taken of the present policies of the Federal Government in helping to finance armories in these communities where they are needed.

Detailed reports as to the organization, training, administration, and logistical and fiscal support, are to be found in this report under their appropriate headings.

This report is intended to fulfill two purposes - (1) To provide information on the New Mexico National Guard for interested governmental and private organizations, and (2) To provide permanent reference material of historical value.

Respectfully yours,

Major General, AGC, NMARNG The Adjutant General

POLICIES OF THE DEPARTMENT OF THE ARMY AND DEPARTMENT OF THE AIR FORCE RELATING TO THE NATIONAL GUARD

#### DEFINITION:

The National Guard of the United States and the Air National Guard of the United States are integral parts and first line reserve components of the Army of the United States and the United States Air Force. The National Guard of the States and Territories continues to exist and, in time of national emergency, may be called or ordered into the Army of the United States and the United States Air Force through its National Guard of the United States status. All Federally recognized units and elements of the Active National Guard and the personnel of the Inactive National Guard of the several States, the District of Columbia and Puerto Rico, together, constitute the National Guard of the United States.

#### MISSION:

Mission of the National Guard of the United States and the policy relative to its employment are set forth in the Armed Forces Reserve Act of 1952 (Public Law 476, 82nd Congress) as follows:

"Sec 201. (a) The Congress hereby declares that the reserve components of the Armed Forces of the United States are maintained for the purpose of providing trained units and qualified individuals to be available for active duty in the Armed Forces of the United States in time of war or national emergency, and at such other time times as the national security may require, to meet the requirements of the Armed Forces of the United States in excess of those of the regular components thereof, during and after the period needed for procurement and training of additional trained units and qualified individuals to achieve the planned mobilization."

This law specifically defined and further clarified dictates that the mission of the National Guard of the United States is to provide a reserve component of the Army of the United States and the United States Air Force capable of immediate expansion to war strength, able to furnish units fit for service anywhere in the world, trained and equipped to: 1. Defend critical areas of the United States against land, seaborne or airborne invasion.

2. Assist in covering the mobilization and concentration of the remainder of the reserve forces. 3. Participate by units in all types of operations, including the offensive, either in the United States or overseas.

Mission of the National Guard of the Several States.

A dual mission is levied upon both the Army and Air National Guard. As stated above, both the Army and Air National Guard have

the Federal mission of preparing their units and members for active military service in time of national emergency, however, there is also an important mission to perform for the State of New Mexico. The State mission, a peacetime one, is the traditional guardian of life and property and constitutes a State security force, which provides sufficient organization in the State so trained and equipped as to enable them to function efficiently at existing strength in the protection of life and property and the preservation of peace, order and public safety under competent orders of State authorities.

#### Composition of the New Mexico National Guard:

The organization and units allotted to the several States will be those which are required for the accomplishment of the mission of the National Guard and, when taken with the units of the Regular Army, United States Air Force and their reserve components, will provide the essential forces required for early mobilization. Within the total allotment, organizations of the proper type will be allotted to each State to enable it to accomplish the Federal and State missions. (See Chart 1 - Personnel, of this report for a listing of the units allotted to the State of New Mexico).

#### FEDERAL AND STATE RESPONSIBILITY:

The National Guard is an integral part of the Army of the United States and the United States Air Force and its success depends upon mutual confidence between the Federal Government and the States. Such confidence is obtained only by the wholehearted efforts of all parties to maintain an effective National Guard.

#### The Federal Government is responsible for:

- 1. Providing the pay of Federally recognized personnel for participation in authorized inactive duty training and active duty for training, including appropriate duty or duties and periods of equivalent duty or training, and administrative pay.
- The procurement and issue of uniforms, arms, equipment and supplies.
  - 3. The supervision of training.
- 4. To appropriate a sum of money annually for the expense of providing ordnance stores, quartermaster stores, camp equipage and to contribute to State funds an equitable share of the expenses of construction and maintenance of certain training facilities, as are now or may later be authorized by law.
- 5. Audit and inspect National Guard units, Army and Air, and accounts and records of the United States Property and Fiscal Officer.

The State Government is responsible for:

- 1. Subject to such qualifications for Federal recognition as may be established by the Secretary of the Army and Air Force, appoint, promote, transfer, assign and separate personnel of the National Guard, Army and Air.
- 2. Provide training and storage facilities, except as contributed to by the Federal Government.
- 3. To train officers, warrant officers and enlisted personnel of the National Guard, Army and Air.
- To properly account for and maintain all Federal property and funds.

#### Adivsors

Under policies of the Department of the Army and Department of the Air Force, selection and assignment of qualified advisors is reserved as a function of Headquarters, Department of the Army and Headquarters, Department of the Air Force with the Several States having the right of rejection. The supervision of the training responsibility of the advisors is vested in the Commanding General, Continental Army Command and Chief of Reserve Forces, Headquarters, United States Air Force. Personnel on duty as advisors with the National Guard have no command status with troops or units of the National Guard. The primary duty of advisors will be to advise and assist responsible commanders in the attainment and maintenance of that state of efficiency of the National Guard units as is prescribed by Headquarters, Department of the Army and Headquarters, Department of the Air Force.

The National Guard Bureau is Charged with:

- l. Administering approved joint Army and Air Force policies, other than those relative to training, when such policies are applicable to both the Army National Guard not in the Federal service and the Air National Guard not in the Federal service and with promulgating joint Army-Air Force directives applicable to both the Army and Air National Guard, including those relating to training.
- 2. Functioning as the channel of communication between the Departments of the Army and Air Force and the State on all matters pertaining to the Army and Air National Guard.
- 3. Maintaining an office of record for all Department of the Army and Air Force records pertaining to the Army and Air National Guard not in the Federal service.

#### National Guard Policy Making

All policies affecting the National Guard are prepared by the General Staff Committee on National Guard Policy (known as the "Section Five Committee") for action by the Secretary of the Army and Secretary of the Air Force under normal Department of the Army and Department of the Air Force procedure. All regulations to carry such policies into effect are reviewed by this committee.

#### COMPTROLLER SECTION.

The State of New Mexico pays all expenses incident to the operation of The Adjutant General, all Armory maintenance and utilities. Facilities occupied by the Air National Guard are maintained on a 75% participation by the Federal Government and 25% participation by the State. Armory construction is supported jointly, the Federal share being 75% and the State share being 25%.

This portion of this report deals only with State expenditures for the 50th Fiscal Year ending 30 June 1962. The expenditure of Federal money can be found in another section of this report.

#### PART I - REGULAR FUND.

#### Vouchers Processed.

During the year a total of 1680 State Purchase Vouchers were prepared and processed to cover the following operating and maintenance costs for the year:

Employee Benefit Plans
Travel
Maintenance and Repairs
Supplies and Materials
Professional Services
Communications
Utilities
Rentals
Insurance and Bond Premiums
Capital Outlay
Other Expenditures

In addition to the above, a total of fifty-eight (58) State Salary Vouchers were processed covering the salaries of personnel paid from State Funds.

#### Expenditures

This Section was responsible for all State Budget and Fiscal matters covering appropriate National Guard requirements. During the year we expended a total of \$319,299.96 of an authorized budget of \$325,000.00. Of the total expenditures \$30,000.00 was refunded to the Department by the Federal Government as reimbursement for the Technician Retirement Program; \$1,535.41 refunded as reimbursement of telephone expenditures for the Senior Army Advisor's Office and the Air National Guard; \$606.10 insurance premiums refunds; and a total of \$581.67 was received for the sale of surplus property, thus giving the Department a net expenditure of \$287,173.15 broken down as follows:

#### PART II - STATE ARMORY BOARD FUND.

#### State Armory Board Members.

Members of the State Armory Board as appointed by the Governor pursuant to the provisions of Section 9-7-3, New Mexico Statutes, 1953, Annotated, are as follows:

MAJOR GENERAL JOHN P. JOLLY - President
MAJOR HAROLD C. EISENBARTH - Secretary-Treasurer
MR. PATRICIO S. SANCHEZ - Member

Activities of the State Armory Board were limited primarily to Building or Structure Maintenance and Construction. The Board entered the 50th Fiscal Year without a fund balance carry-over from the 49th Fiscal Year and had an outstanding loan payable of \$20,000.00. Cash receipts for the year totaled \$67,785.85. The Board was authorized the sale of a \$1,000,000.00 Bond Issue for the construction of the Military Complex in Santa Fe and for the construction of various armories throughout the State. In addition the Board received an appropriation of \$15,000.00 from the State's General Fund for armory maintenance, thus giving the Board a total of \$1,082,785.85 for the year. During the year a total of 152 Cash Receipt vouchers were processed for receipts derived from the following sources:

			SALE OF		
BOARD		RENTALS	PROPERTY	INTEREST	TOTALS
State Armory	Bd	*\$4,342.77	\$1,000,000.00	\$11,006.56	\$1,015,349.33

General Fund Appropriation

15,000.00

GRAND TOTAL

\$1,082,785.85

<sup>\*</sup> Includes Insurance Claim of \$1,835.65

#### Cash Balance:

Cash balance carry-over to the 51st Fiscal Year is \$913,427.30. Of this figure \$800,000.00 has been invested in short-term invest-mentments (90 - 180 days). We plan to continue these investments until such time that the actual cash will be required to complete our construction program.

#### Local Armory Boards of Control.

Members of the various Local Armory Boards appointed by the Governor pursuant to the provisions of Section 9-7-4, New Mexico Statutes, 1953, Annotated, are as follows:

#### ALAMOGORDO ARMORY BOARD OF CONTROL

CAPT RUSSELL L HOKE, 1800 Miracerros Lane, Alamogordo, NM, President 1ST LT BENNY L TAYLOR, 2329 Apache Ln, Alamogordo, NM, Secy-Treas BILLY J DUNN, Alamogordo, NM, Civilian Member

#### ALBUQUERQUE ARMORY BOARD OF CONTROL

MAJOR ORVIE L GREEN, PO Box 495, Albuquerque, NM, President MAJOR CLARENCE E JORDAN, PO Box 495, Albuquerque, NM, Secy-Treas COL CLARENCE E ROTHGEB (USA-RET) Albuquerque, NM, Civilian Member

#### ARTESIA ARMORY BOARD OF CONTROL

CAPT JOHN C KING, Box 1387, Artesia, NM, President 1ST LT RANDLE S EASLEY, Box 112, Dexter, NM, Secy-Treas MR. L W BRUMMETT, Artesia, NM, Civilian Member

#### BELEN ARMORY BOARD OF CONTROL

CAPT JAMES T BONDS, 904 Caine St, Socorro, NM, President 2ND LT ORELIO MONTOYA, 4716 Delamar, NE, Albuquerque, NM, Secy-Treas MR BERNARD BACA, Belen, NM, Civilian Member

#### CARLSBAD ARMORY BOARD OF CONTROL

CAPT JEROME GOLDSTEIN, 1308 Alvarado St, Carlsbad, NM, President 1ST LT UEL E FLEMING, 1703 Hermosa Dr, Artesia, NM, Secy-Treas Mr Horace G Hubert, Carlsbad, NM, Civilian Member

#### CLAYTON ARMORY BOARD OF CONTROL

1ST LT ROY D LEIGHTON, Rt 2, Box 14, Clayton, NM, President 2ND LT FRED W BOWEN, Box 295, Clayton, NM, Secy-Treas MR AL CARTER, Clayton, NM, Civilian Member

#### CLOVIS ARMORY BOARD OF CONTROL

CAPT BILLY J HOLLEN, 2900 Las Palomas, Clovis, NM, President CAPT FRED D FARRIS, 724 West Sandia Dr, Clovis, NM, Secy-Treas MR JAMES A BURRAN, JR, Clovis, NM, Civilian Member

#### DEMING ARMORY BOARD OF CONTROL

2ND LT JOE L WALKER, Box 524, University Park, NM, President 2ND LT FRED A ERNST, PO Box 165, Deming, NM, Secy-Treas MR A J NAYES, Deming, NM, Civilian Member

#### ESPANOLA ARMORY BOARD OF CONTROL

1ST LT CHARLES ARANDA, Herrera St, Espanola, NM, President 1ST LT JOSEPH F MERHEGE, PO Box 397, Espanola, NM, Secy-Treas MR ROY HONSTEIN, PO Box 36, Espanola, NM, Civilian Member

#### FARMINGTON ARMORY BOARD OF CONTROL

CAPT BERT G BARNS, PO Box 873, Farmington, NM, President 1ST LT BOBBY V CARMAN, 2109 Culpepper Lane, Farmington, NM, Secy-Treas MR ORVAL RICKETTS, Farmington, NM, Civilian Member

#### FORT SUMNER ARMORY BOARD OF CONTROL

MAJ WILLIAM H CARR, PO Box 445, Ft Sumner, NM, President 2ND LT HARLON N NICHOLAS, Rt 2, Elida, NM, Secy-Treas MR JOHN D DONNELL, Ft Sumner, NM, Civilian Member 2ND LT JOHN B SOUTHERN, Box 86, East Vaughn, NM, Member

#### GALLUP ARMORY BOARD OF CONTROL

CAPT THERON PRICE, JR, Box 33, Thoreau, NM, President 1ST LT HAROLD J SPRINGER, 808 East Green, Gallup, NM, Secy-Treas MR WINDEL C BOATMAN, Gallup, NM, Civilian Member

#### GRANTS ARMORY BOARD OF CONTROL

2ND LT JAMES R CASE, 633 Gunnison, Grants, NM, President SP-5 HENRY R BRITO, JR, 904 North 1st Street, Grants, NM, Secy-Treas SP-5 BENJAMIN CHAVEZ, Grants, NM, Member

#### HOBBS ARMORY BOARD OF CONTROL

CAPT THOMAS W WYLIE, 2717 N Northwest Dr, Hobbs, NM, President 1ST LT FRANK M FARRELL, 509 So Fourth St, Jal, NM, Secy-Treas MR J W NEAL, Hobbs, NM, Civilian Member

#### LAS CRUCES ARMORY BOARD OF CONTROL

CAPT LOY D EASTER, 1975 Chilton Dr, Las Cruces, NM, President CAPT RICHARD E HARRIS, Box 817, Las Cruces, NM, Secy-Treas MR CLINT SMITH, Las Cruces, NM, Civilian Member

# LAS VEGAS ARMORY BOARD OF CONTROL

CAPT DONALD S GUERIN, 1112 E National Ave, Las Vegas, NM, President 1ST LT ALVIN J REGENSBERG, Camp Luna #19, Las Vegas, NM, Secy-Treas MR JIMMY BUSTAMONTES, Las Vegas, NM, Civilian Member

#### LORDSBURG ARMORY BOARD OF CONTROL

CAPT JESUS J ESTRADA, PO Box 745, Lordsburg, NM, President 2ND LT GARNETT R BURKS, Box 817, Las Cruces, NM, Secy-Treas MR HERIBERTO V SAUCEDO, Lordsburg, NM, Civilian Member

#### LOVINGTON ARMORY BOARD OF CONTROL

CAPT JERRY G STOLTZ, Box 788, Lovington, NM, President
2ND LT ALBINO DE LOS SANTOS, JR, 824 W Washington, Lovington, NM,
MR J R MORGAN, Lovington, NM, Civilian Member Secy-Treas

#### PORTALES ARMORY BOARD OF CONTROL

CAPT JACK CHAMBLESS, 1013 E 13th St, Clovis, NM, President 2ND LT HOLLIN L HARRIS, 715 W 16th St, Portales, NM, Secy-Treas MR DEWEY F LANGSTON, Portales, NM, Civilian Member MAJ ROBERT C COLEMAN, Portales, NM, Member Ex-officio CAPT BILLY J GEORGE, Portales, NM, Member Ex-officio

#### RATON ARMORY BOARD OF CONTROL

CAPT JOSEPH MACARON, JR, PO Box 728, Springer, NM, President 1ST LT LINDLEY R DAVIS, 901 S Third St, Raton, NM, Secy-Treas MR ROBERT SKINNER, Raton, NM, Civilian Member

#### ROSWELL ARMORY BOARD OF CONTROL

MAJOR MARNIN D BOHANNON, 26 Morningside, Roswell, NM, President 1ST LT MELVIN L TITUS, 3301 Bandolina Dr, Roswell, NM, Secy-Treas CAPT CHARLES F NICHOLS, Roswell, NM, Member MR H L RIVES, JR, Roswell, NM, Civilian Member

#### SANTA FE ARMORY BOARD OF CONTROL

1ST LT JOSEPH D MARTINEZ, 4804 Douglas Mac Arthur, Albuquerque, Pres. 2ND LT LEOPOLDO M VASQUEZ, 8010 Aspen, Albuquerque, NM, Secy-Treas MR ISAAC VALDEZ, 916 Osage, Santa Fe, NM, Civilian Member

#### SILVER CITY ARMORY BOARD OF CONTROL

CAPT ANDY M PADILLA, Box 515, Silver City, NM, President 1ST LT GEORGE W JAMESON, JR, Silver City, NM, Secretary-Treasurer

#### SOCORRO ARMORY BOARD OF CONTROL

CAPT WADE R HEDGECOKE, Box 1164, Socorro, NM, President 2ND LT BILLY R PARKS, North 6th St, Socorro, NM, Secy-Treas MR P H KARRON, Socorro, NM, Civilian Member

#### SPRINGER ARMORY BOARD OF CONTROL

1ST LT CHARLES N FORD, JR, PO Box 66 Springer, NM, President 2ND LT WILLIAM D KILIGORE, 1102 S Third, Springer, NM, Secy-Treas MR DANIEL W CALDWELL, Springer, NM, Civilian Member MR CARL J GARITSON, Springer, NM, Member Ex-officio

#### TAOS ARMORY BOARD OF CONTROL

1ST LT LAWRENCE A SANTISTEVAN, PO Box 654, Taos, NM, President 2ND LT WILLIAM A OAKLEY, PO Box 953, Taos, NM, Secy-Treas DR REO J BENSON, Taos, NM, Civilian Member

#### TRUTH OR CONSEQUENCES ARMORY BOARD OF CONTROL

CAPT DIEGO T MONTOYA, PO Box 4, Elephant Butte, NM, President 2ND LT ROBERT E LARA, 405 Cedar St, T or C, NM, Secy-Treas MR JOE D TAFOYA, T or C, NM, Civilian Member

#### TUCUMCARI ARMORY BOARD OF CONTROL

CAPT WILLIAM C LITCHFIELD, 1412 S 6th St, Tucumcari, NM, President CWO ALVIN N CAWTHON, PO Box 434, Tucumcari, NM, Secy-Treas MR CHARLES N MAGRUDER, Tucumcari, NM, Civilian Member

All the Secretary-Treasurers of the above states Local Armory Boards of Control are covered by an Employees Honesty Blanket Position Bond in the amount of \$5,000.00 pursuant to the provisions of Section 9-7-6, New Mexico Statutes, 1953, Annotated.

Gafford, Hq Btry 5th AW Bn (SP) 200th Arty, Eisenhower Trophy; and Capt James T. Bonds, Btry B, 3rd AW Bn (SP) 200th Arty, Fourth U. S. Army Commander's Unit Maintenance Trophy.

# MILITARY PERSONNEL

I.	MILITARY PERSONNEL DIVISION
II.	PUBLICATIONS AND REPRODUCTION SECTION
III.	DISTRIBUTION OF NEW MEXICO ARMY NATIONAL GUARD UNITS
IV.	STATE STRENGTH ANALYSIS BY MONTH

F-100A jet aircraft, 188th Fighter Interceptor Squadron, on the Squadron Parking Ramp, Albuquerque, New Mexico.

#### I. MILITARY PERSONNEL DIVISION

The Military Personnel Division (G-1 Section) is charged with the responsibility of providing administrative and operational services for the Adjutant General in connection with the assignment, promotion, appointment, enlistment, transfer, and separation of all personnel, officer and enlisted, of the Army National Guard, to include processing and maintenance of all records of such personnel. Custody and maintenance of records includes all records dating back to the Territorial Militia of 1860. The Division performs administrative services and records for the following:

Officers and Warrant Officers
Enlisted Personnel
Reports and Regulations
Recruiting, Orders, and Retained Records
Publications and Reproductions
Claims, Investigations, and Courts-Martials
Reports of Survey

The Division is the office of record for all Army National Guard personnel assigned to the State of New Mexico, and is responsible for the development and implementation of policies and procedures for their personnel management, to include preparation and continuous maintenance of a file for each individual, officer and enlisted.

Other actions performed during the fiscal years:

Officer Efficiency Reports processed and forwarded to the National Guard Bureau - 782

Officer Physical examinations processed and forwarded to the National Guard Bureau - 510

Security Clearances: Officers - 82 Enlisted - 36

Reports of Survey processed and forwarded to Headquarters, Fourth United States Army - 27

Line of Duty Investigations processed and forwarded to the National Guard Bureau - 20

Claims for Damages processed and forwarded to Headquarters Fourth United States Army - 6

Statements of Service completed and forwarded to requesting authority - 1585

Officer appointments and promotions processed and forwarded to the National Guard Bureau - 186

Enlistment Records processed and forwarded to the National Guard Bureau - 1306

Courts-Martials Reviewed - 26

Enlisted 201 files processed and filed and/or forwarded - 3257

Personnel policies, procedures, and regulations are reviewed and published in concise AGONM regulations to better enable all units to conform to policies established by the National Guard Bureau and the Department of Army. All regulations were reviewed and republished on 1 October 1961.

Disposition of records has been established by an AGONM Regulation for all units of the New Mexico Army National Guard. The Office of the Adjutant General is the receiving depot for storage after screening, some records are stored in State Records Center.

The Adjutant General of New Mexico utilizes the routine military orders system for issuing directives and instructions to units, commanders and individuals of the New Mexico Army National Guard, and in connection with the operation of the Adjutant General's Department. These orders are published according to the style and format utilized by the United States Army and the Department has adopted the appropriate regulations of that service for guidance. The personnel Division receives requests for, processes, publishes, consolidates, and distributes these written orders.

#### II. PUBLICATIONS AND REPRODUCTION SECTION.

The Publications and Reproduction Section received from federal, state, and commercial sources approximately 50 tons of publications, blank forms and other material pertaining to the administration and training of the New Mexico Army National Guard. This material was distributed as indicated below:

2000 boxes federal publications, for initial distribution to units by separate forms. (Forwarded to units by small breakdown)

360 boxes federal publications for replenishment requisition of blank forms. (Forwarded to units on call)

# III. DISTRIBUTION OF NEW MEXICO ARMY NATIONAL GUARD UNITS.

Units, location, and strength of New Mexico Army National Guard units are shown in Chart 1 - Personnel.

# IV. STATE STRENGTH ANALYSIS BY MONTH.

A State strength analysis for period is shown in Chart 2 - Personnel.

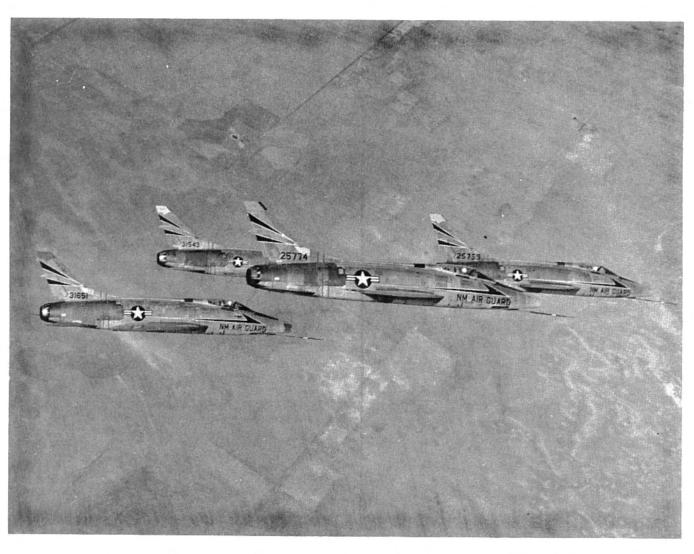

# DISTRIBUTION OF NEW MEXICO ARMY NATIONAL GUARD UNITS

#### PART I - THE STATE MAINTENANCE OFFICER.

The State Maintenance Officer (SMO) is in charge of the maintenance program in the State and is a staff officer on the staff of the State Adjutant General. Vehicles and equipment are widely distributed through out the State among Army National Guard Units. Repair of vehicles and equipment is accomplished through seven (7) Organization Maintenance Shops, one (1) Combined Field Maintenance Shop and one (1) Field Training Equipment Concentration Site. The SMO is responsible for the efficient repair and maintenance of a wide variety of equipment in any of the above locations, and is also responsible for the proper inspection, maintenance, and repair of Army aircraft authorized He develops current and long range plans to insure that adequate facilities, personnel, current and long range plans to insure that adequate facilities, personnel, tools, and equipment are provided to insure the preservation, segregation, classification as to serviceability, repair, and maintenance of equipment throughout the State. He schedules and supervises the necessary inspections to insure the efficient operation of all facilities involving the repair, maintenance, and storage of equipment, the stocking of necessary parts and supplies, and the employment, assignment, and utilization of The SMO advises the State Adjutant General and the personnel. USP&FO in all matters pertaining to maintenance, parts, supply, assignment of personnel, personnel requirements, and allied fiscal matters. He supervises the necessary compilation of reports in connection with personnel, equipment, parts, supply, maintenance, and repair of equipment; initiates and answers correspondence involving the program.

#### PART II - MISSION OF THE STATE MAINTENANCE OFFICER.

Under the general direction of the State Adjutant General, the SMO is technically responsible for the establishment and efficient operation of a State-wide maintenance program. The STATE MAINTENANCE FACILITY AND SUPPORT PLAN, AGONM Regulations Number 4-1 is his established maintenance doctrine. Information and instructions of a technical nature not covered in the aforementioned plan are disseminated in the form of STATE MAINTENANCE LETTERS.

During the reporting period the SMO has accomplished or has participated in the following: Attended the Ordnance Officer Refresher Course, Aberdeen Proving Ground, Maryland, in charge of Command Maintenance Inspections, performed Quarterly Spot-Check Inspections of the Organizational Maintenance Shops and Administrative Storage Compound Sites, accomplished follow-up inspections of unsatisfactory categories resulting from the Command Maintenance Inspections, worked with Technician Program Coordinator on authorization and distribution of maintenance technicians, worked with the USP&FO on redistribution of equipment resulting from reorganization, participated in the establishment of a Field Training Equipment Concentration Site at Las Cruces, performed inspection of M42's at Toole Ord Depot, Utah

and Red River Arsenal, Texas for acceptance to the NMARNG, attended Fourth Army National Guard Area Conference at Santa Fe, New Mexico, and Oklahoma City, Oklahoma and served as a delegate to the National Convention of the National Guard Association at Las Vegas Nevada, worked with US Army Reserve in establishing a Maintenance Agreement for the National Guard to take care of the Field Maintenance of USAR equipment in six (6) towns in the State.

The State Maintenance Officer received "SUPERIOR! ratings for Fiscal Years 1961 and 1962 for annual Inspectors General Inspection conducted by Fourth United States Army.

# PART III - ORGANIZATION.

# Combined Field Maintenance Shop.

The Combined Field Maintenance Shop (CFMS) is located in Buildings T-110, T-126, and T-106, Kirtland Air Force Base, Albuquerque, New Mexico, and is under the supervision of the CFMS Superintendent. The mission of this field maintenance facility is to: Repair assemblies, components and end items for return to using organizations, service stock or USP&FO warehouse stock, provide technical assistance, mobile repair crews and repair parts to lower echelons where necessary, furnish work parties to support Organizational Maintenance Shops and Units, provide inspection teams, evacuate unserviceable materiel requiring maintenance beyond the authorized scope or capabilities of the CFMS, to operate a State-wide Transportation Motor pool, and the Field Maintenance of United States Army Reserve equipment based on Maintenance Agreement DA 29-032-NG-132.

The CFMS furnished inspector personnel for the conduct of the Command Maintenance Inspections. Contact teams from the CFMS visit all seven (7) Organizational Maintenance Shops once each year, to make necessary field maintenance repairs.

The equipment supported by the CFMS includes: 1335 wheeled vehicles and trailers, 58 tracked vehicles and materiels handling equipment, 184 generators and power units, 99 artillery pieces, 3976 small arms and components, 1384 instruments, 13 radar and operation centers, 1473 radios and telephones, two light aircraft and one helicopter.

To accomplish the field maintenance support of the above equipment this maintenance organization is operated with a force of forty-four (44) employees broken down into sections as follows: Shop Office - 7, Automotive Section - 18, Armament Section - 6, Electronic Section - 6, Service Section - 5, and Army Aviation Maintenance Section - 2.

During the reporting period the following items were processed by the CFMS with parts cost as indicated:

CATEGORY	JOBS	PARTS COST
Vehicles	1,916	\$43,814.62
Artillery	222	24,440.90
Small Arms	8,253	692.27
Fire Control & Instr.	107	20,088.68
Signal	1,150	4,042.84
Engineer	186	1,118.75
Rebuild	1,464	1,498.99
Aircraft	4,605 (Labor Hrs.)	178.57

Total Parts Cost \$95,875.62

The above production was accomplished in 93,568 direct labor hours.

CFMS personnel accomplished the following miscellaneous projects: The processing of approximately 144 wheeled vehicles for re-issue to the Regular Army during Berlin crisis. spection and classification of 176 commercial vehicles declared excess to needs of NMARNG by NGB. The state wide evacuation of 242 excess power generators, the inspection and classification The inspection, repair and rebuild of 32 ea refrigerated Air Conditioners used with M-33 Fire Control Systems. The inspection of 28 ea M-38 75mm Skysweepers located at Pueblo Colorado and the evacuation of 9 ea weapons to New Mexico for the purpose of cannibalization for parts, to satisfy the repair requirements of weapons of the 6th Gn Bn. The borescoping, gaging, and exercising of 204 Artillery pieces. The visual inspection of approximately 280 M-42 twin 90mm tracked vehicles at Toele Ord Depot Utah, to determine feasibility of acceptance The acceptance check, modification work order inby NMARNG. spection, and unloading of 164 ea M-42 full track twin 40mm vehicles acquired through reorganization of the NMARNG. rotation and delivery of M-42's state wide to meet training requirements of the six (6) AW Bns for scheduled weekend instruction. The grading of an aircraft parking area for the Aviation Section. Grading and dirt evacuation of two (2) rifle ranges.

In addition, maintenance personnel participated in the following projects with State pay or Equivalent Training from their Units: Coordinated with New Mexico State Police and placed equipment and personnel in the Corona area for the purpose of rescuing snow bound hunters, placed equipment and personnel in the Sangre De Cristo Mountains to aid in the rescue of now bound boy scouts, furnished gun salute squads Governor's inauguration, Governor's Day (Air Guard), VFW Convention in Alamogordo, Salute to Union, 4 July 1961, Las Curces, furnished display of equipment and instructors for Armed Forces Day, furnished drivers and busses for Naval Research Clinic, Raton, New Mexico.

To further the technical knowledge of personnel on equipment being supported, CFMS technicians were in attendance at Army Service Schools for a total of 42 weeks during the reporting period. A signal test equipment school was conducted at the CFMS for all electronic section personnel.

The following schools were conducted by Combined Maintenance Shop personnel: A Maintenance Course of instruction to the 1st AW Bn at Artesia, New Mexico, which included instruction on track vehicles, artillery, small arms, power generators and signal equipment. An Army Area School on the Army's New Maintenance Record system presented to Maintenance and Administrative Technicians.

# Field Training Equipment Concentration Site.

The Field Training Equipment Concentration Site is located in Las Cruces, New Mexico, and is under the supervision of the FTECS Supervisor. The mission of the Field Maintenance Facility is to: Receive, maintain (organizationa field and instorage maintenance), store and issue heavy items of equipment such as tanks or track laying equipment, signal equipment, artillery materiel and basic issue items pertaining to such equipment used at the annual field training site.

The FTECS was placed in operation on 17 April 1962 using existing facilities. All track laying vehicles were received by 1 May 1962. These vehicles had to be inspected, deprocessed repaired and placed in a serviceable condition for Annual Training by 5 August 1962. This mission was accomplished.

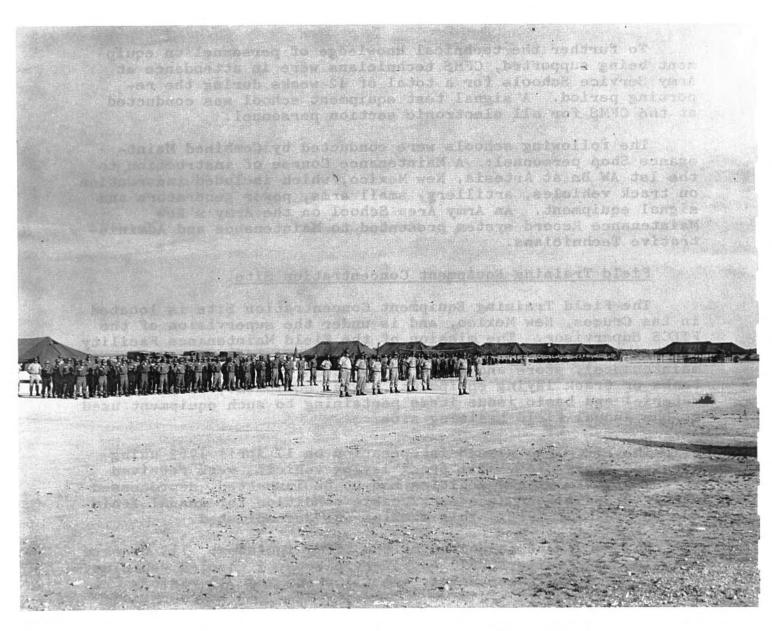

The equipment supported by the FTECS includes: 115 tracked vehicles, 24 trailers, 230 Artillery pieces, 3 wheeled vehicles, 7 generators and power units, one (1) crane and 230 radios.

To accomplish the Organizational and Field Maintenance of the above equipment this maintenance organization is operated with a force of twenty (20) employees broken down into sections as follows: Shop Office - 6, Automotive Section - 7, Armament Section - 3, Signal Section - 2, Service Section - 2.

During the reporting period the following items were processed by the FTECS with parts cost as indicated:

CATEGORY	<u>JOBS</u>	PARTS COST
Track Vehicles	107	\$ 4,545.22
Artillery	214	57.45
Signal	20	None \$ 4,602.67

The above production was accomplished in 9,013 direct labor hours.

HHD, 515th Ord Bn formed for parade at Hueco Range, Field Training, 1962.

# Organizational Maintenance Shop and Administrative Storage Compound Sites.

The mission of the OMS and ASC Sites is as follows: The performance of all organizational maintenance beyond the capabilities of using personnel, to maintain an administrative storage compound for unit vehicles and materiel not currently required for training, to maintain minimum stocks of fastmoving parts and supplies, to furnish a base for the operation of field maintenance contact repair and inspection teams, to furnish contact teams for the performance of organizational maintenance and inspections when this procedure would be more economical than scheduling equipment into the OMS, and to evacuate equipment to the CFMS.

There are presently seven (7) OMS & ASC's for the New Mexico Army National Guard in operation and are located as follows: OMS & ASC #1 - 1st Aw Bn, Artesia, NM, OMS & ASC #2 - 2nd AW Bn, Deming, NM, OMS & ASC #3 - 3rd AW Bn, Belen, NM, OMS & ASC #4 - 4th AW Bn, Santa Fe, NM, OMS & ASC #5 - 5th AW Bn, Roswell, NM, OMS & ASC #6 - 6th AW BN, Tucumcari, NM, OMS & ASC #7 - 515th Ord Bn, Albuquerque, NM.

The remodeling of existing facilities and the building of new shops has been completed on six (6) of the seven (7) installations. The building of facilities for OMS & ASC #7 is scheduled for FY Year 1963.

Maintenance technician assignments at Organizational Maintenance facilities are governed by the density of assigned equipment as outlined by the National Guard Bureau. There are presently 39 Organizational Maintenance Technicians authorized the State. The technician breakdown per installation is as follows: OMS #1, Artesia - 5, OMS #2, Deming - 6, OMS #3, Belen - 5, OMS E4, Santa Fe - 6, OMS #5, Roswell - 7, OMS #6, Tucumcari - 5, OMS #7, Albuquerque - 5.

Standing Operating Procedures for these installations are outlined in the State Maintenance Facility and Support Plan, AGONM Regulation Nr 4-1, dated 1 January 1962, and approved by the Chief, National Guard Bureau.

# PART IV - INSPECTIONS.

# Spot Check Inspections of OMS & ASC Sites.

The Quarterly Spot Check Inspections of established OMS & ASC Sites performed by the State Maintenance Officer resulted in the following yearly average rating:

OMS_NR.	LOCATION	RATING
1	Artesia	89.1% EX
2	Deming	95.5% SUP
3	Belen	92.5% EX

4	Santa Fe	94.8% SUP
5	Roswell	91.5% EX
6	Tucumcari	86.6% GOOD
7	Albuquerque	85.3% GOOD

### Command Maintenance Inspection.

The Annual Command Maintenance Inspection of all New Mexico Army National Guard Units and Maintenance Facilities was conducted by the State Maintenance Officer. During the reporting period two (2) itineraries were published which established dates of 15 May 1961 - 16 June 1961 and 5 November 1961 - 18 December 1961 for the inspections. An inspection team under the direction of the SMO and composed of 15 members from the Combined Field Maintenance Shop and two (2) members from the USP&FO conducted the inspections as scheduled. The results of the inspections reflect the following grade totals by Technical Service:

TECH SERVICE	SUP	$\underline{\mathbf{E}\mathbf{X}}$	GOOD	FAIR	UNSAT
Engineer	93	22	24	3	6
Chemical	84	3	0	0	0
Ordnance	283	98	33	28	25
Signal	54	24	5	6	2
Quartermaster	337	52	33	21	11

#### Follow-Up Inspections.

The State Maintenance Officer is required to perform a follow-up inspection of categories found unsatisfactory on the CMI. The follow-up inspection for the CMI's were performed 6 - 14 July 1961 and 7 - 14 January 1962. It was noted that all units involved had taken necessary corrective action on the unsatisfactory categories.

#### Mission Accomplished.

The ultimate goal of the Maintenance Program in the State is to have all equipment in efficient, safe operating condition at all times. This point has been reached each year for the Annual Field Training of the New Mexico Army National Guard.

annual Active Duty for Training

Major General Ralph Osborne, Deputy Commander, Fourth U. S. Army Headquarters, chats briefly with members of the 6th AW Bn (SP) 200th Arty during the 1962 Field Training Period on Hueco Range.

# PART I - MISSION OF THE NEW MEXICO ARMY NATIONAL GUARD.

The mission of the New Mexico Army National Guard is to provide the Army with adequately organized, trained, and equipped units which, in case of national emergency or war, will be available for mobilization in accordance with the deployment schedules and with the capabilities of participating in combat operations in support of the Army's war plan. The mission may include the defense of critical areas of the United States against attack and to be so trained that a civil defense mission may be accomplisted.

The responsibility for the accomplishment of the above mission is delegated to the Adjutant General by the Governor of New Mexico

#### PART II - TRAINING OBJECTIVES.

The training objectives are to train individuals of the New Mexico Army National Guard in the fundamentals of combat readiness and to train units to the maximum degree of proficiency, so that a minimum of post mobilization training will be required.

During the years 1961 and 1962 the New Mexico Army National Guard experienced a major reorganization, converting five (5) battalion size units from 90mm battalions to 40mm SP Automatic Weapons Battalions. This reorganization necessitated a major change in the training program late in the training year of 1961 and 1962. In order to accomplish as much training in Armory Drill Status as possible during the period 1 May 62 - 30 Jun 62 an accelerated program was effected. Twelve hours of MOS crew training on track vehicles was conducted in the period of May and June at home station by personnel of the Active Army from Ft Bliss, Texas. In addition, a 40 hour drivers course was conducted at Las Cruces, New Mexico, which MOS qualified 96 EM as Track Vehicle Drivers.

#### PART III - TRAINING OF THE NEW MEXICO ARMY NATIONAL GUARD.

#### Armory Drills.

The armory drills (inactive duty for training) consists of twenty-four (24) two hour drills and twelve (12) multiple drills, for a total of one hundred forty-four (144) hours of training. This type of training is conducted at home stations and includes classroom and Gun Park training on a unit level. The subjects for this training is prescribed in the appropriate Army Training Programs.

Multiple drills are held to give the unit an opportunity to conduct small unit operations, conduct small arms firing, conduct tactical field exercises, rifle matches, bivouacs, security, and on-the-job training for each individual in the unit.

note the first and the state of the state of

PRINCIPAL THERE IS NOT

tandida vers to tend of tond a tend of tend of tend of were to tend of were tond of the tend of the tend of te

Chow call on Hueco Range, August 1962.

# Annual Armory Inspections

The high point of armory training is the annual Inspector General visit, when the Inspectors General of the Active Army test the proficiency of the unit in such fields as:

Adherence to prescribed Army training policies and directives.

Alert and mobilization readiness.

Supply administration and maintenance of equipment.

Care and maintenance of weapons, armories, records, vehicles, and equipment.

Personal knowledge, morale, and appearance of individuals.

Leadership qualities of officers and noncommissioned officers.

Quality and quantity of assigned specialists.

Forty-three (43) units (Btry, Company and Detachment size) were inspected during the months of April and May in 1961 and 1962. (See Chart 1 for ratings) Special emphasis was placed on these inspections by the Adjutant General in the year 1962. The result of this program is indicated in the higher ratings obtained by all units except one.

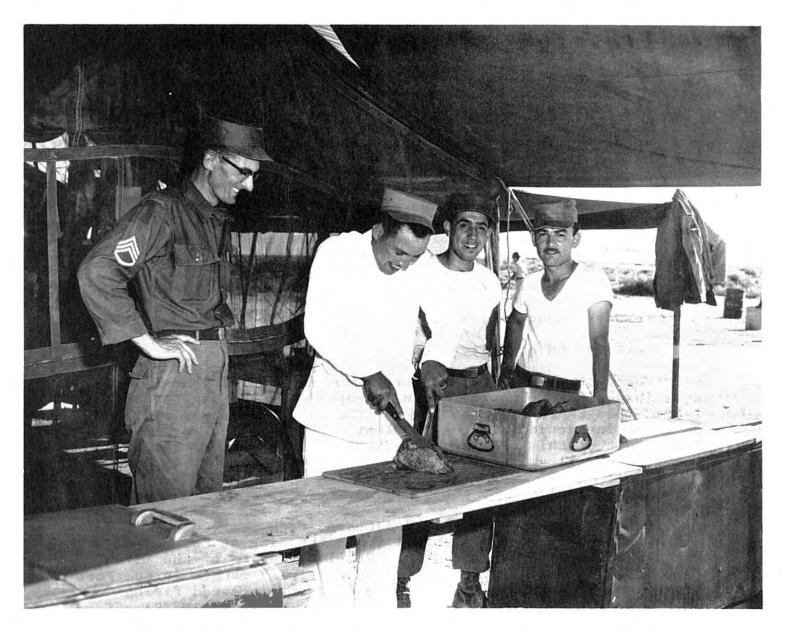

# Annual Active Duty for Training.

The New Mexico Army National Guard, each year, during the month of August, conducts annual field training at Fort Bliss, Texas. During the training year 1961-1962, units of the 111th Arty Brigade spent fifteen (15) days on firing ranges in the Fort Bliss, Hueco Range Complex. This encampment included firing of all weapons on the antiaircraft ranges. This ANACDUTRA affords Boards, composed of Active Army Officers, an opportunity to test, analyze, and measure the combat efficiency of the Army National Guard. Results of these tests are disseminated to the Department of Defense, Continental Army Command, Army Commanders, and the Adjutant General for information relative to selection of units to round out the ready forces for commitment to action in support of approved Army war plans. There were 2700 Guardsmen that attended ANACDUTRA CY 61, 2500 Guardsmen were in attendance at ANACDUTRA CY 62.

General comment of the inspecting teams termed the camp as one of the most successful field training periods conducted by the New Mexico Army National Guard. (See Chart II for Ratings)

#### PART IV - SERVICE SCHOOLS.

The educational standards required by the National Guard Bureau and other commands of the Army, make the school program the most active yearround activity. During the 1961-1962 training

PREPARING THE MEAT FOR CHOW TIME -- (1-r): Sgt Thomas D Elliott, SP4 Abran Baca, SP5 Arnold Lopez, and SP4 Daniel V Jojola, of Albuquerque, New Mexico, work in the mess hall in preparation for the noon meal at Hueco Range.

year, forty-two officers and one hundred and four enlisted men furthered their education by attending service schools. (See Chart III). These service schools conducted by the Active Army ranged in length from two (2) months to nine (9) months duration.

#### PART V. - RFA SIX MONTHS TRAINING PROGRAM.

The RFA Six-months Training Program continues to be the most important phase of training for new recruits. During the year 1961-1962, the input of five hundred and seventy one new trainees constitutes a record for this program. When an enlisted man returns to the unit, he is not only trained as a basic soldier, but has also received advanced individual training. With this training, he can fit into the unit training program as a trained individual. (See Chart IV)

#### PART VI. - EXTENSION CORRESPONDENCE COURSES.

The Extension Correspondence Courses of instruction is another phase of the school system. During the training year, 492 members of the NMARNG participated in this program. This is an accomplishment, considering that this type of schooling is done by the individual in his spare time. This is indicative of the spirit of the men in the Guard.

# PART VII. - ARMY AREA SCHOOLS.

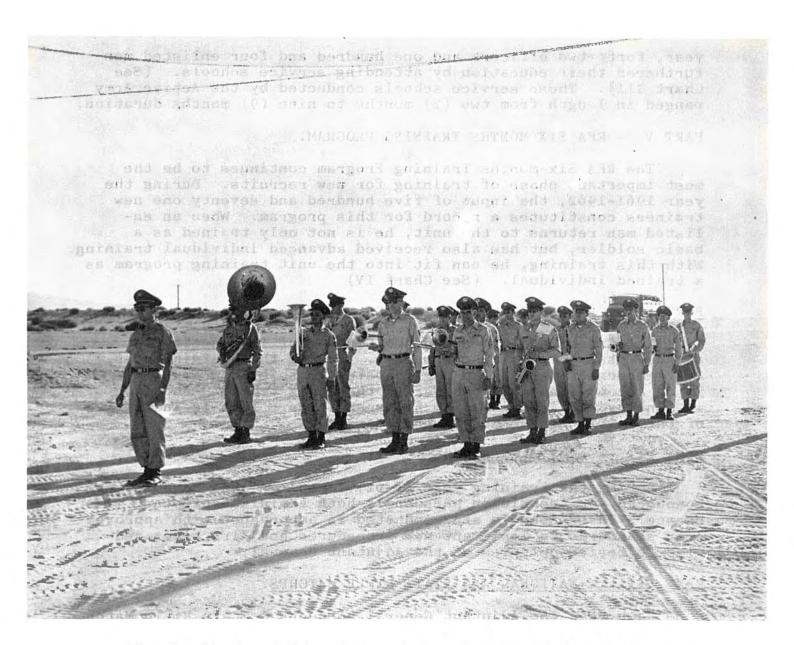

During the training year 61-62, four Army Area Schools were conducted for technician personnel, both administrative and maintenance. These schools are conducted in accordance with approved Army standards to implement new procedures and directives and also to review policies of the Adjutant General.

# PART VIII. - NATIONAL AND STATE RIFLE MATCHES.

Each year the Adjutant General conducts a State Rifle Match. The matches for 1961-1962 were conducted in Santa Fe, New Mexico on 9-10 June 1962. Forty-eight (48) Guardsmen participated in this match. The High Shooters of this match were selected for the New Mexico National Guard Rifle Team to represent the State in the National Rifle Matches in Camp Perry, Ohio. At the completion of the National Rifle Matches at Camp Perry, Ohio, Captain Wade Hedgecoke was selected as a member of the All National Guard Rifle Team.

#### PART IX. - ALERTS.

Alerts are a normal yearly requirement for the New Mexico Army National Guard. Each year shows a definite improvement in the Mobilization and Alert Plans. During the alert of 1961, 80% of the personnel assigned were present at the armory within a two (2) hour period. This performance indicated that the units of the New Mexico Army National Guard could, in an emergency, fulfill its mission, whether it be a local disaster or a national emergency.

The New Mexico National Guard's 44th Army Band getting ready to entertain National Guard troops on Hueco Range.

# PART X. - NEW MEXICO ARMY NATIONAL GUARD MILITARY ACADEMY.

The New Mexico Army National Guard Military Academy was established as directed by General Orders Number 8, Office of the Adjutant General, dated 29 April 1958. National Guard Regulation Number 46, authorizes the establishment of, and outlines the operation of, a state operated Officer Candidate School.

The purpose of the NMARNGMA is to select outstanding, enlisted personnel of the New Mexico National Guard, and develop within them, the characteristics of leadership, command ability, and tactical proficiency that is required of a commissioned officer.

Operation of this Academy gives the Adjutant General far greater control over the selection of officers to fill existing and future vacancies in the officer ranks of the New Mexico National Guard.

The following outlines the number of officers that have been commissioned during this reporting period:

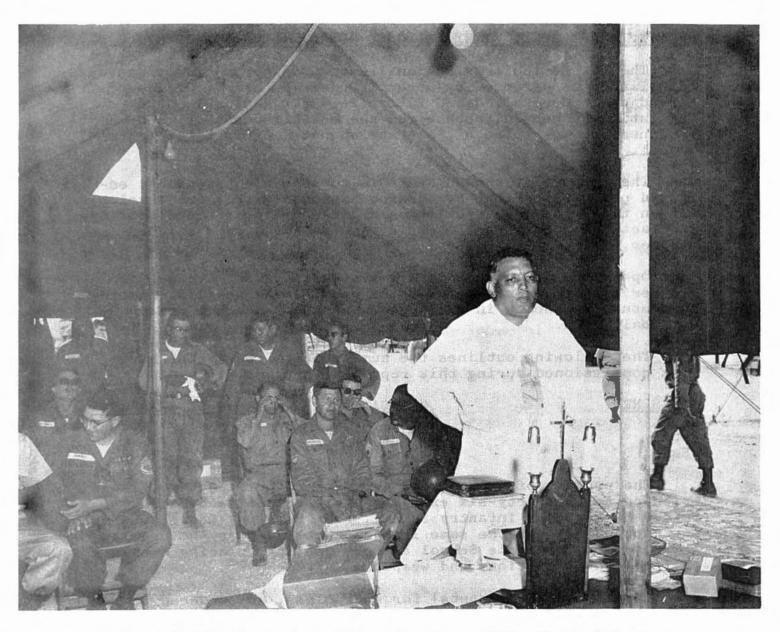

CLASS NR.	GRADUATED	NR OF GRADUATES
3-61	18 Aug 1961	18
4-62	17 Jun 1962	27
*Est	16 Jun 1963	25*

The program of instruction is written, printed, and distributed to the Forty-six existing state academies by the United States Army Infantry School, Fort Benning, Georgia. The instruction follows the same line as that given at the regular Army Officer Candidate School at Fort Benning, placing emphasis on leadership, tactics, and weapons.

Candidates (applicants) for each class, are ordered to appear before the Academic Board. The Board convenes at the permanent home of the Academy, Bruns Hospital Area. Those candidates that are accepted are appointed as Cadets and attached to the Academy for training. The course of instruction starts at summer camp. After this two weeks training period the Cadets meet at the Academy in Santa Fe on the third weekend of each month. During these weekend drills the cadets receive from eleven (11) to thirteen (13) hours of instruction. The Cadets receive a total of two hundred twenty-five (225) hours of instruction during the entire course.

During the year, the Cadets are constantly observed and evaluated on their progress, both academically and in the development of leadership potential.

Upon successful completion of the course, the graduates are appointed as Second Lieutenants, New Mexico Army National Guard.

Captain Benito Y Caraballo, Chaplain, HHD, 515th Ord Bn, conducts Catholic services in the field, August, 1962.

Not considering the current class, 128 Cadets have entered the program and 83 have graduated and been commissioned. This amounts to .648%. The high graduating percentage can be attributed to the percentage of college students and graduates that are entering the program and the fact that the majority of the Cadets have had at least two years active or National Guard service, and the rigid screening process by the Academic Board.

#### PART XI - ARMY AVIATION.

Army National Guard Aviation in New Mexico is progressing very slowly. With the reorganization of the NMARNG in April 1962, no additional aviation units were acquired. The aviation augmentation to Headquarters, 111th Arty Brigade (AD) with TO&E of three (3) aviators, (two rotor and one fixed wing); five enlisted men and one aviator position in HHD comprise the Army Aviation in the State.

The New Mexico Army National Guard now has two pilots on flight status who are dual qualified, with one L-20 utility aircraft and one H-23C reconnaissance helicopter assigned at present with the OT&E allowance of one L-19 observation aircraft and one more reconnaissance helicopter due to be assigned to the State when they become available. One aviator went to active duty during the Berlin Crisis and has not yet returned.

There is one aviator on full time duty at the Office of the Adjutant General who does most of the flying for Army Aviation during the year. Administrative missions of all types are flown, such as supply and inventory for the USP&FO, inspections of the construction program, inspections with State Maintenance Shop personnel, and many liaison visits with Adjutant General Staff Officers to units throughout the state and Fourth Army personnel at Fort Bliss, Texas, and Fort Sam Houston, Texas.

Search and rescue missions were also flown during the reporting period. Among these were:

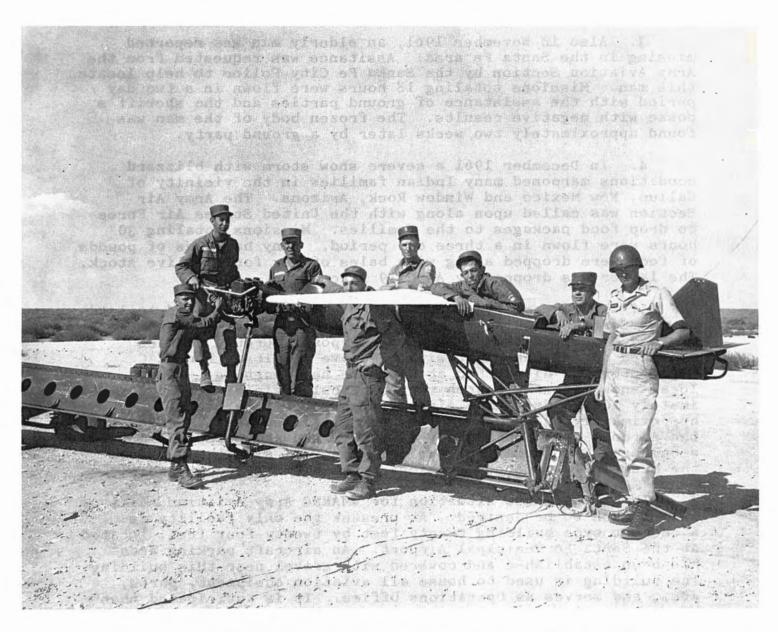

- 1. In August 1961 the Adjutant General's Office was contacted to assist in locating a body of a young boy drowned in the Pecos River in the vicinity of Santa Rosa, New Mexico. The H-23C helicopter was dispatched and missions were flown totaling twenty hours in two days with negative results due to the high water and shifting sands in the river.
- 2 In November 1961, a severe snow storm covered the south-eastern part of New Mexico and many hunters were marooned. The Army National Guard in several areas was called out and the H23C and L-20 were dispatched to assist in the location of stranded hunting parties and to direct trucks to these locations. Missions totaling 35 hours were flown.

Governor Mechem returns from reviewing the troops during the 1962 National Guard Field Encampment

- 3. Also in November 1961, an elderly man was reported missing in the Santa Fe area. Assitance was requested from the Army Aviation Section by the Santa Fe City Police to help locate this man. Missions totaling 18 hours were flown in a two day period with the assistance of ground parties and the sheriff's posse with negative results. The frozen body of the man was found approximately two weeks later by a ground party.
- 4. In December 1961 a severe snow storm with blizzard conditions marooned many Indian families in the vicinity of Gallup, New Mexico and Window Rock, Arizona. The Army Air Section was called upon along with the United States Air Force to drop food packages to the families. Missions totaling 30 hours were flown in a three day period. Many hundreds of pounds of food were dropped along with bales of hay for the live stock. The latter was dropped by AF C119 Aircraft.
- 5. In January 1962, a civilian aircraft attempted to land at the Santa Fe Municipal Airport in a snow storm at night, and crashed a short distance from the airport. Ground parties searched during the night with negative results. The H23C Helicopter was dispatched at dawn the next morning. Heavy local snow made the search very difficult (visibility approximately 100 yards). The aircraft was located by the pilot at approximately 0930. The helicopter airlifted one passenger to the Airport Road and Highway 422 where she was placed in an ambulance. The bodies of two children were also evacuated to the Municipal Airport. Missions totaling five hours were flown.

The maintenance situation for NMARNG Army Aviation still leaves much to be desired. At present the only facility is a quonset type building twenty feet by twenty-four feet, located at the Santa Fe Municipal Airport. An aircraft parking area has been established and covered with gravel near this building. The building is used to house all aviation equipment, parts, etc., and serves as Operations Office. It is anticipated that much needed improvements will be made in the next fiscal year. Two mechanics are on duty at all times, one of them is helicopter qualified. With no hanger facilities, it is very difficult to perform anything but first and second echelon maintenance. fore, New Mexico is supported by the Holloman Air Force Base Army Aviation Maintenance Shop for most third or fourth echelon maintenance and fourth and fifth echelon by the Ft Worth General Depot at Eagle Mt AAF Base, Ft Worth, Texas. Fort Bliss Parachute Shop supports the NMARNG aviation in the complete maintenance of the parachutes issued. Request has been made through the Chief, National Guard Bureau for rental hanger space from Santa Fe Skyways Inc., and at the present time negotiations between the Corps of Engineers and the Skyways corporation are being conducted for this space. Upon receipt of these facilities the proper tools can be obtained and work space will be available for the section to accomplish its own third and fourth echelon maintenance and eliminate much travel and delay in receiving parts and assistance due to the distance involved.

The men of the 7th Air Target Detachment work on the RCAT's (Radio Controlled Air Targets). The men are part of the New Mexico National Guard and are shown attending the 1962 summer encampment. They are from left to right SP5 Gilbert Sanchez, SP4 Pete Lucero, Sgt Bill Rich, Sgt Carl Rich, SP5 Eddie Pena, SP4 Jim Griego, SP5 William Hill, and 2nd Lt John Southern, all of Fort Sumner, New Mexico

The school situation for aviation has stabilized in the past year. All full time personnel are fully qualified for their positions. One officer and one warrant officer are scheduled to attend Fixed and Rotary Wing School next Fiscal Year. One mechanic is scheduled to attend Shop Chief and Inspector School next Fiscal Year.

# Army Aviation Flying Time.

# REPORT FROM G2 SECTION

Advancement in the security of the armories in general and especially the arms rooms and vaults in these armories have been accomplished, or are in the process of being accomplished at this time.

Physical security inspections are being made by an Inspector from the Adjutant General's Office, Ft Bliss, Texas, delegated to them from the Commanding General, Fourth U. S. Army.

Approximately one-third of these inspections have been completed and as the reports are received the discrepancies are noted with proper steps being taken to eliminate them on a priority and maintenance funds availability basis.

All safes were properly anchored in each armory throughout the State prior to the I G Inspection, as a result of the above mentioned inspections. Very few descrepancies were noted for security reasons in the 1962 I G Inspections.

Approximately seven hundred complete or reviewed confidential clearances were processed through this office. Secret clearance (which is required for all officers) totaled one hundred and eighty-five. These clearances require a National Security Agency Check which is accomplished through the G-2 Section, Fourth U. S. Army.

Numerous publications of a classified nature are received in this office throughout the year and are filed and maintained for ready reference.

# U. S. PROPERTY AND FISCAL OFFICER FOR NEW MEXICO

Air Force Property Division

Air Force Budget and Fiscal Division

- IV. ARMY ADVISORS
- V. RESUME

Lt Colonel Robert H Moser, USP&FO for New Mexico, briefs the Governor and Legislative Members on activities of the New Mexico National Guard, during their visit to the field training site at Fort Bliss, Texas, August 1962.

### PART I - THE U. S. PROPERTY AND FISCAL OFFICER

The U. S. Property and Fiscal Officer is a New Mexico National Guard Officer on active duty. This Officer is accountable for all federal property used by the Army and Air National Guard and all federal funds expended to support the New Mexico Army and Air National Guard. 40 civilian employees are employed for Army and 23 civilian employees are employee are paid from federal funds.

## PART II - MISSION OF THE U. S. PROPERTY AND FISCAL OFFICER

The mission of the U. S. Property and Fiscal Officer for New Mexico is to equip, supply and maintain the authorized National Guard Units of the State of New Mexico in behalf of the federal government. He handles all administrative details in connection with the supply of National Guard units and has accountability for all Department of the Army and Department of the Air Force property in possession of the National Guard of the State. The mission includes the maintenance of accounting records for all federal funds allotted to the State of New Mexico and procurement of federal supplies and equipment not available through normal supply channels; the shipment of property and movement of individuals and troops; the maintenance, repair and authorized alterations to buildings, grounds and utilities, and for construction authorized from federal funds.

To accomplish this mission, the Office of the U. S. Property and Fiscal Officer is divided into several divisions and branches, each under the supervision of a division or branch chief who is responsible for the functions of his division. The various divisions are as follows:

Administrative Division.

Audit Branch.

Army Property Division.

Warehouse Branch.

Army Budget and Fiscal Division.

Financial Inventory Accounting Branch.

Purchasing and Contracting Branch.

Transportation Branch.

Air Force Property Division.

Air Force Budget and Fiscal Division.

The annual general inspection for FY 1961 was conducted by the Inspector General Section, Headquarters Fourth U. S.Army, 1 May through 3 May 1961. An overall rating of SUPERIOR was given as a result of this inspection. The annual general inspection for FY 1962 was conducted by the same Headquarters, 7 May through 9 May 1962. An overall rating of SUPERIOR was given as a result of this inspection.

An internal audit of the USP&FO for New Mexico was completed by United States Army Audit Agency in October/November of 1961. No major deficiencies were disclosed by the audit.

### PART III - ORGANIZATION.

### Administrative Division.

This division maintains control of all recurring reports required by higher headquarters to insure timely and adequate submission. Instructions, guides and procedures are published for distribution to units of the New Mexico National Guard and the divisions and branches of the USP&FO for New Mexico. All reports and procedures are reviewed by this division.

All directives were subject to a continuing review during the period of this report. Changes and additions were published as necessary. Procedural manuals were re-written.

Effective 1 April 1962, the New Mexico Army National Guard was reorganized by the National Guard Bureau. As a result of this reorganization four Battalions equipped with obsolete 90 mm weapons and one Battalion equipped with obsolete 75 mm weapons were converted to the M-42 twin 40 mm self-propelled weapons.

Representatives attended the following conferences during the period covered by this report:

NGB 4th Army Area Conference, Santa Fe, New Mexico

NGB 4th Army Area Conference, Oklahoma City, Oklahoma.

MILSTRIP Seminar, Ft. Lee, Virginia.

Punch Card Reporting and Requisitioning Procedure Conference, San Luis Obispo, California.

ADPS Seminar, San Francisco.

### Audit Branch.

The Audit Branch was responsible for conducting annual property audits of all Army National Guard units, special audits when required due to transfers or change-of-command, audits of Army Advisor Accounts and audits of special accounts under Table of Allowance 130, New Mexico

The Audit staff performed audits and inventories of all memorandum receipt accounts in the State twice during the period of this report. This resulted in 89 annual audits and 70 change-of-command audits. Closeout audits were performed on all deactivated units.

Additional duties performed by the Audit Branch included lateral transfer of property resulting from redesignation of units and inventories of property in USP&FO Warehouse.

### Army Property Division.

Technicians from this division assisted in the inspection of unit supply records during the period January - March 1962 in preparation for the Annual General Inspection conducted by the Inspector General Department, 4th U. S. Army.

In connection with the reorganization, a Field Training Equipment Concentration Site was established at Las Cruces. The function of this facility is to maintain while in temporary storage, all of the M42 guns that are not used at the home station of units during Armory training. All M42 guns that are required during Field Training are driven overland from the Concentration Site to the bivouac area. This will effect a savings of thousands of dollars that otherwise would have to be expended in moving the guns from the unit home station to the field training site and return.

The reorganization in April 1962 created a large amount of excess property. During the months of March and April 1962 more than twelve million dollars in excess property was reported to the Technical Services for disposition. Much of this property will be returned to Department of Defense Stocks for further utilization. Property that is obsolete, and for which no training requirement exists, is turned in to Property Disposal.

During the period April/May 62 we received over \$13,000,000.00 of equipment for our new troop basis.

In order to effect a savings in man-hours in processing vouchers for the issue of clothing and individual equipment, a Service Stock was inaugurated on 1 September 1961. This has accelerated the issue of this type of property and enables the units to obtain a much more rapid receipt of property.

A service Agreement has been entered into with the U. S. Army Reserve to maintain Reserve equipment in Northern part of the State and to furnish parts in connection with repair of Major Items. The repair will be accomplished by the Combined Field Maintenance Shop. This will result in an additional number of line items added to the State requirement for those Major Items that are not in our TO&E.

New steel office furniture has been furnished each Headquarters, Battery, Company and Detachment. This equipment consists of executive type desks, typewriter desks, chairs, filing cabinets and book-case sections. The issue of these items will place each orderly room in a very attractive position and will improve the working conditions of the technicians.

New office machines have been bought during this reporting period as follows:

Ten each typewriters to replace those that were from fifteen to twenty years of age.

A new electric accounting machine was placed in service in the Voucher Section in May 1962. This machine replaces hand operated vouchering actions, and has speeded up this work area by approximately 50%.

During February 1961 requisitions changed from manual preparation on DD Form 1149 to punch-card requisition using DA Form 2156. This machine is leased from IBM on a yearly rental basis. This procedure has reduced the order and shipping time by 10 to 15 days from the various depots. The advantage derived enables a depot to machine process the single line punch-card requisition in a matter of minutes, whereas the manual DD Form 1149 took hours to process for supply.

### Warehouse Branch.

An additional workload was placed on warehouse technicians due to excesses created incident to reorganization and the receipt of new equipment for redesignated units. This is being met on a phased basis and by 1 Sepbember 1962 the excesses should be disposed of where disposition has been received from the Technical Services.

A large quantity of individual clothing has been turned in to the Warehouse during the period January - May 1962. This has been due to the inspection of supply records by USP&FO Technicians in transferring clothing items from the property book to individual clothing records. All items of clothing that were thus rendered excess were turned in to the USP&FO.

During this reporting period the Roadrunner Express traveled approximately 60,000 miles within the State making deliveries and picking up property for turn-in. An estimated weight of 388,000 pounds was transported by this means, effecting a great savings in transportation funds.

A total of 4651 vouchers processing materiel worn out by fair wear and tear in the units of the NMARNG was handled by this department. This property went to Property Disposal Officers in accordance with existing regulations.

All dry cleaning of woolen items and laundry of cotton items was handled by this Department. Pick-up and delivery of blankets of out of town units is handled through the Warehouse and by the Roadrunner Express.

Total number of documents processed from 1 July 1960 thru 30 June 1962:

a. Control Numbers 28,419 b. USP&FO Voucher Numbers 13,450

Total number of Accounting Technicians processing property actions:

Total amount of gasoline consumed for Armory Training for the period 1 July 1960 thru 30 June 1962: 434,106 gallons

Excess property shipped or transferred to other Government Agencies: \$2,309,142.00

Statements of Charges, Reports of Survey and Reports of Operational Losses processed during this reporting period are as follows:

a. Statements of Charges

Number of Statements of Charges 528
Dollar value of Statements of Chgs \$10,582.00

b. Reports of Survey

Number of Reports of Survey 17
Dollar value of Reports of Survey \$11,557.00

c. Reports of Operational Losses

Number of Reports 363
Dollar value of Losses \$10,198.00

d. Droppage of Field and Signal Wire

Total number of feet 1,036,746 Dollar value of Wire \$12,615.49

Valuation of Federal property in the hands of units of the New Mexico Army National Guard is as follows:

Chemical	6,900.00
Engineer	216,259.00
Medical	15,500.00
Ordnance	21,273,425.00
Quartermaster	285,850.00
Signal	1,873,835.00

Transportation Clothing & Industrial	47,500.00
Equipment	340,590.00
TOTAL	24,059,859.00

A total of 44 Army National Guard units in the State has Federal Property on Memorandum receipt and these units are located in cities as follows, number of units each city is indicated in parentheses:

Albuquerque	8	Fort Sumner	2
Alamogordo	1	Farmington	1
Artesia	1	Gallup	1
Belen	1	Las Cruces	2

# Army Budget and Fiscal Division

This Division has the responsibility for controlling all Federal funds allotted this State for support of the New Mexico National Guard, by maintaining accounting records and processing various vouchers for payment.

During the past two Fiscal Years this division administered the following accounts:

- 93 Primary Expense Accounts (PEA)
- 32 Subsidiary Expense Accounts (SEA)
  - 8 Project Accounts
  - 6 Program Accounts
  - 4 Allotment Accounts
  - 5 Appropriation Accounts.

Following are the number of line postings and approximate number of documents accomplished per Fiscal Year:

FISCAL YEAR 61			FISCAL YEAR 62		
General Ledgers	Auxiliary Ledgers	Number Documents	General Ledgers	Auxiliary Ledgers	Number Documents
13,532	11,500	7,900	24,399	21,000	12,148

During the past two Fiscal Years (1961-1962), this division maintained and administered accounting records for the following appropriations:

e, Army
onnel
e, Army
NG
d Accts.

The Chief National Guard Bureau issued the State of New Mexico, the following allotments of funds during the last two Fiscal Years as indicated:

FISCAL YE	AR 1961	FISCAL YE	AR 1962
2112020	3,150.00	2122020	287,100.00
2112060	681,765.00	2122060	686,090.00
2112065	1,665,345.00	2122065	1,650,935.00

Grand Totals	365,160.00	1,284,039.00	965,352.00	2,610,551.00

Credit Memoranda issued by the various Army Supply Depots for Material returned are as follows: (These Credits are applied by the Depots against SF 1080 Billings on this station's accounts and items requisitioned are supplied at no cost).

Total Credits Received: FY 1961 FY 1962 \$9,938.77

Annual Field Training Funds expended and included in the total expenditure of Funds are as follows:

<u>ACTIVIT</u> Y	FY 1961	FY 1962
Pay and Allowances, Officers & EM Subsistence Petroleum, Oils and Lubricants Travel and Transportation Parts & Materials Incident to AFT Miscellaneous AFT Expenses	\$344,578.95 50,954.99 22,050.59 11,908.08 5,399.47 4,406.49	\$365,160.00 49,200.00 31,000.00 16,516.86 5,201.36 3,084.12
Total Annual Field Training Expenses	\$439,298.57	\$470,162.34

Significant variations to be noted in the expenditure of funds between Fiscal Year 1961 and Fiscal Year 1962 are as follows:

- a. Military Pay and Allowances, AFT of \$20,500.00 due to NMARNGMA-OCS attending AFT in June 1962 instead of August 1962.
- b. Parts and Materials for maintenance of vehicles and equipment of \$250,500.00. This increase was due to the acquisition of 140 M42 S/P Guns for which Army thru CNGB allotted \$282,200 to the State of New Mexico to bring all guns to operating condition.
- c. The significant variation in POL expenditures between Administrative, Armory Training and Annual Field Training Petroleum, Oils and Lubricants is due to application of expenses of approximately 10,000.00 to AFT Funds in preparation of vehicles and equipment for enroute to and return from camp which had not been done in the past FY.
- d. Technician Travel was increased from 23,496.69 to 31,200.00 due to impact of re-organization in April.
- e. Technician Pay notable variation was caused in part by agreement between the State of New Mexico and the United States Government for support of State Retirement for National Guard Technicians.

## Financial Inventory Accounting Branch.

This branch of the Office of the United States Property and Fiscal Officer provides financial accounting data on property transactions for the U. S. Property and Fiscal Officer and the National Guard Bureau.

The purpose of Financial Inventory Accounting is to provide management with a system of accounting for inventories on a monetary basis. To aid management, material is grouped into categories of like items within a funding group/code system. An example of this is Quartermaster stock fund, Category 230/502-2B(P7050) which evaluates all footwear.

As a part of the Financial Management Plan, Financial Inventory Accounting is designed to achieve more effective and efficient overall financial management of inventories. This includes improvement of operational performance at all levels through the assignment of specific responsibility for the evaluation and control of the cost of supplies by those who actually consume such supplies. The objective is to use financial inventory data not only for supply management purposes but also for programming, budgeting and costing purposes. Specific examples of areas where financial inventory data is used to advantage are:

Control over the investment in supplies and equipment.

Determination of stock status in relation to programmed objectives and requirements.

Planned procurement including local procurement.

Status of mobilization reserve assets in relation to requirements.

Relationship of repair and rebuild activity to requirements and unserviceable inventory on hand.

Progress in the disposal and redistribution of excess materiel.

Determination of the value of losses and gains due to physical inventory adjustments, accounting adjustments, standard price changes and shipments.

Determination of efficiency and effectiveness of installations in computing stock requirements when related to issue and return data.

The Financial Inventory Accounting branch utilizes the property vouchers of the Property Division to convert item transactions into their monetary equivalent. These dollar amounts are then posted to Financial Inventory Accounting ledgers and to increase and decrease journals.

The total value of Federal property in the hands of units is approximately twenty-six million dollars; the warehouse inventory as of 11 June 1962 is \$511,028.96. This sum is divided among the seven technical services of the stock fund and non-stock fund divisions as follows:

	30 June 1961	11 June 1962
Chemical Engineer Medical Ordnance Quartermaster Signal Transportation	235.07 6,962.98 1,161.41 85,403.91 173,268.86 20,714.11 78.48	1,244.68 21,800.74 631.23 254,038.97 185,475.37 47,481.65 356.32
	287,824.82	511,028.96 *

\*0f the total amount of inventory on hand as noted herein, \$210,245.87 has been committed to excess reports as no longer required to needs of the State. Disposition instructions pending.

Increases noted in Fiscal Year 1962 from that reported at the end of Fiscal Year 1961 are excesses returned from units to USP&FO warehouse due to reorganization completed during current fiscal year.

## Purchasing and Contracting Branch.

This Branch is responsible for the proper and timely handling of purchases and for maintenance of all records, reports, and related activities necessary to fulfill the requirements of purchasing and contracting.

During Fiscal Year 1961, 2,305 purchase orders were initiated by this division for a total of \$187,372.17.

Non-Armory construction is based on 100% federal participation and the money is allotted after full justification of projects.

Non-Armory Construction completed during Fiscal Year 1961 is as follows:

STATION	TYPE	COST
Santa Fe	Organizational Maintenance Shop and Storage Compound Site	\$21,511.72
Tucumcari	Organizational Maintenance Facility	9,569.93
Roswell	Organizational Maintenance Facility	9,662.29
Artesia	Organizational Maintenance Shop and Storage Compound Site	21,501.91
Albuquerque	Storage Site Area (Air National Guard Area, KAFB, New Mexico)	24,347.22
Tucumcari	Organizational Maintenance Shop Bldg	25,000.00

Non-Armory Construction completed during Fiscal Year 1962 is as follows:

STATION	TYPE	COST
Roswell	Organizational Maintenance Shop Bldg	\$24,973.00
Belen	Organizational Maintenance Shop and Storage Compound Site	15,874.00
Albuquerque	Motor Pool Paving (Air National Guard Area, KAFB, New Mexico)	15,090.30
Albuquerque	Maintenance Control Wing (Air National Guard Area, KAFB, New Mexico)	40,408.00
Albuquerque	Relocation of Maintenance Storage Shed (Air National Guard Area, KAFB, NM)	12,369.40
Albuquerque	Air Guard Wash Rack (Air National Guard Area, KAFB, New Mexico)	8,565.00
Non-Armory construction awarded but not completed during Fiscal Year 1962 is as follows:		
Las Cruces	Hardstand at Field Training Equipment Concentration Site	9,999.66
Albuquerque	Paving Adjacent to Alert Hangars (Air National Guard Area, KAFB, New Mexico)	5,379.30
Albuquerque	Alteration of POL Building (Air National Guard Area, KAFB, New Mexico)	7,228.62
Albuquerque	Paving of Aircraft Parking (Air National Guard Area, KAFB, New Mexico)	9,996.46
Albuquerque	Air Conditioning of Maintenance Control Wing (Air National Guard Area, KAFB, NM)	7,163.00
Albuquerque	Paving of Ground Power Parking Area and Refueling Parking Area (Air National Guard Area, KAFB, New Mexico)	4,728.50
Albuquerque	Modification of Flammable Storage Building (Air National Guard Area, KAFB, NM)	7,314.42

Operation, Maintenance and repairs of New Mexico Army National Guard facilities, 75 percent federal and 25 percent State, for Fiscal Year 1961 is as follows:

Federal Share	\$20,820.00	
State Share	6,940.00	
TOTAL	\$27,760.00	

Operation, Maintenance and Repairs of New Mexico Army National Guard Facilities, 75 percent Federal and 25 percent State, for Fiscal Year 1962 is as follows:

Federal Share State Share	\$24,210.00 8,072.00
TOTAL	\$32,282.00

## Transportation Branch

This branch consists of a traffic manager who supervises all movements of personnel and freight by commercial means. Following is summary of activity during period covered by this report.

	FY 61	FY 62
Government Bills of Lading issued	191	199
Tonnage Shipped	933.71	1993.48
Cost	\$23,644.07	\$57,125.20
Tonnage received	978.13	3944.49
Transportation Requests issued	401	394
Cost	\$33,261.18	\$25,280.44
Meal tickets issued	1490	1370
Cost	\$ 2,873.75	\$ 1,712.50

## Air National Guard - Supply

FY 1961

During this Fiscal Year, this Base Supply supported twenty-two F-100As two F-100Fs, and one C-47 aircraft. The year began with 4820 active stock record cards and ended with 3426. This indicates a continuation of the program to reduce stocks of aircraft spares on hand. At the same time, an AOCP rate (Aircraft out of commission due to parts) was maintained consistently below the average rate maintained by the Air Force for the same airplane.

An annual inventory was taken in January 1961 showing 100% accuracy in the Category I group (or high-value); 92% in Category II; and 96% in Category III. As stated in the last report, it is planned to use this method of inventory in the future, being much more satisfactory than the cycle method that was formerly used.

During Fiscal Year 1961, 6,376 transactions were handled with the using units. This is a considerable reduction from the prior year. This decrease was due to better control of bench stock in the maintenance area which includes more accurate stock levels and estimates of requirements. 6,221 requisitions were submitted to Army and Air Force supply depots during this period.

A total of 212,364 lbs of freight was shipped by commercial means during FY 1961. In addition, 53,023 lbs were shipped via the Air Force log-air system and Kirtland Air Force Base. This does not include the shipments made via parcel post which is used whenever possible. During the same period 572 shipments totaling 483,826 lbs were received from various sources. The Transportation Branch also issued 30 transportation requests during this period but no meal tickets.

During Fiscal Year 1961, 701 cash purchases were made under \$100.00. Also 242 separate purchase orders were processed including those made on both commercial vendors and General Services Administration.

There were 363 engine status reports submitted to the Air Force Engine Manager.

A total of 17 people is authorized in this Base Supply but there was a shortage of one person during most of Fiscal Year 1961 because of the 98% limitation on manning that the National Guard Bureau has levied on the Air National Guard.

While the storage space is more than adequate, when considered as square feet, it is unsatisfactory for several reasons. The warehouses are too far apart, thereby causing many extra trips to be made back and forth each day. Also, Base Supply is now more than 3 miles from the maintenance and flying activities causing many extra miles of driving both for base supply people and the technical supply personnel assigned to the maintenance activity.

### FY 1962.

During this Fiscal Year, this section supported twenty-three F-100As two F-100Fs and one C-47. At the end of the Fiscal Year, there were 3,022 active stock record cards.

In February of 1962, the annual inventory of property on hand was conducted. The inventory accuracy was 100 percent for Category I (Hi-Valu) 98 percent for Category II; and 99 percent for Category III.

During this Fiscal Year, 9,258 requests were processed from the various sections on this base. There was also a total of 9,553 transactions with all the supplying depots. This includes both requisitions and shipments.

A total of 165,000 pounds of serviceable and reparable freight was shipped by commercial means during the year. There were 200 GBLs used during this period. A total of 35,000 pounds of freight was shipped utilizing the Air Force's Logair system. There was a considerable amount of parcel post shipment but no accurate count was made.

In the local purchase area, there were 680 separate cash purchases made from local vendors. There were also 205 purchase orders made including those to GSA. Many of these were for purchases made outside of the local area.

There were 395 Engine Status Reports submitted by the Engine Manager reflecting changes in status of all aircraft engines on the Base.

A considerable number of man-hours has been spent in preparation for MILSTRIP. This includes classes for both technician and non-technician personnel to indoctrinate everyone of coming changes in the military supply system.

There was a total of 17 Air Technicians authorized and on hand at the end of the year.

The AOCP rate averaged about 1 percent for the year which is well below the Air Force average for the F-100F aircraft. During the year, there were 303 days with no aircraft in AOCP status.

## Air National Guard - Fiscal.

Significant occurrences for the Comptroller Section, New Mexico Air National Guard for the period 1 July 1960 thru 30 June 1962 are as follows:

- 1. Complete centralization of accounting and finance activities under the Comptroller Section.
- 2. Loss of two technicians resulting in reassignment of remaining technicians and appointment of new employees to lower positions.
- 3. Acquisition of Statistical Service (Key Punch) responsibility serving Base Supply requisitioning, maintenance date collection and maintenance man-hour accounting.
- 4. Payroll servicing responsibility assigned by the National Guard Bureau for approximately 120 Air Guardsmen called to active duty for approximately five months and assigned to Kirtland Air Force Base. These Guardsmen were called to active duty from several units throughout the Nation.

Station funds allocated to the New Mexico Air National Guard for Fiscal Years 1961 and 1962 were received in three separate appropriations totaling \$2,873,278.46.

The following comparative summary represents specific breakout and pertinent facts of each Fiscal Year and each appropriation.

Assets of the New Mexico Air National Guard for Fiscal Years 1961 and 1962 are summarized below:

	FY 1962	FY 1961
Aircraft		24,941,478.00
Material in transit from procurement.	23,731.73	
Material on Hand	1,236,551.07	2,256,461.00
Equipment in Use	1,564,279.69	1,442,082.00
Other Equipment		13,253.00
Construction in Process	40,998.90	
Total Assets	2,865,561.39	28,653,274.00

Note: Revision of Accounts during Fiscal Year 1962.

Non-Station Funds operating expenses accounted for by the New Mexico Air National Guard are as follows:

Fiscal Year 1962: 427,689.97 Fiscal Year 1961: 1,828,002.00

Variance for the two Fiscal Years is due to elimination of expense accounting of aircraft fuel and pay and allowances, unit training assemblies during Fiscal Year 1962.

The Financial Inventory Records of the New Mexico Air National Guard reflect the following activity:

### Fiscal Year 1961:

Beginning Inver	ntory	672,833.00	
Increases Decreases	13,658,786.00 12,075,258.00		
Net Increase		1,583,528.00	

### Fiscal Year 1962:

Ending Inventory

Increases	4,827,101.00
Decreases	5,847,011.00

Net Decrease 1,019,910.00

2,256,461.00

Ending Inventory 1,236,551.00

## PART IV - ARMY ADVISORS.

# Period of 1 July 1960 to 30 June 1961:

d. Federal funds disbursed for travel and per diem of Advisors: 17,303.23

e. Number of miles driven by Advisors in FY 62: 280,743

f. Number of days TDY of Advisors during FY 62: 2,250 (Approx)

### PART V - RESUME

Significant progress has been made in Logistics and Fiscal administration. New equipment has been placed in operation during the last six months, which has speeded up certain operations and resulted in additional data for management purposes. These include new Status of Equipment reporting, new requisitioning and issuing system and financial reporting procedure. Looking to the future, we will mechanize performance and cost reporting in maintenance and USP&FO operations.

Work load as reflected by statistical data reflects big increase in volume, for example, we processed twice as many supply actions in FY 62 as in FY 61. This work load is reflected throughout the operation.

The reorganization of 1 April 1962 and resultant change in equipment has caused many problems in logistical and maintenance support and increased workload which should diminish somewhat during the next Fiscal Year.

## NEW MEXICO AIR NATIONAL GUARD

### OBJECTIVES

- 1. The objective of the New Mexico Air National Guard is to recruit, equip and train individuals and units to be available for active duty in the Air Force in the time of national emergency and other times as the national security may require.
- 2. The New Mexico Air National Guard actively participates in the Air Defense Command alert program by providing nine pilots and fully armed aircraft per day for a twenty four hour around-the-clock alert operation. Pilots on Air Defense Command alert, when properly notified, which is several times daily, are airborne within an average of four and one-half minutes for the purpose of intercepting any known or unknown enemy aircraft in the area.
- 3. The utilization of the Air National Guard in the actual defense of our Nation in the time of peace demonstrates its vitally important position in the National Defense structure. The area for coverage of interceptors of the New Mexico Air National Guard includes all of New Mexico, West Texas, Southern Colorado and Eastern Arizona. The responsibilities this imposes upon the officers and airmen of the Air National Guard are ever increasing. The importance of the Air Defense mission for this locale and the vital role the New Mexico Air National Guard plays in this mission with its supersonic aircraft are major factors in the unit's not being called to active duty during the Berlin Crisis.

### FEDERAL RECOGNITION AND ORGANIZATION.

- 1. The New Mexico Air National Guard was federally recognized on 7 July 1947 as a Fighter Bomber Squadron, and was equipped with F-51 Mustangs.
- 2. One officer and two airmen of the original twelve officers and thirty-four airmen are still members of the New Mexico Air National Guard.
- 3. The New Mexico Air National Guard was converted from a Squadron, 540 personnel authorized, to a Group, 956 personnel authorized, in July 1960. This Group is currently equipped with twenty-three F-100-A single seat supersonic fighters, two F-100-F two seated supersonic trainers, two T-33 two seated subsonic trainers and one C-47 support aircraft.
- 4. The F-100A and F Aircraft are equipped with four twenty millimeter cannons and are capable of carrying two each GAR-8 ("Sidewinder") missiles which are air-to-air guided missiles.

5. The New Mexico Air National Guard consists of six squadrons. Shown below is a listing by Squadron of officer and airmen authorized and aggregate totals:

Squadron	OFF	AMN	AGGR
150th Fighter Group (AD)	27	119	146
188th Fighter Interceptor Squadro	n 34	19	53
150th Air Base Squadron (AD)	7	122	129
150th Materiel Squadron (AD)	11	209	220
150th CAMRON (AD)	9	365	374
150th USAF Dispensary (AD)	10	24	$\frac{34}{956}$
	98	858	956

### UNITED STATES AIR FORCE ADVISORS

1. The mission of the regular Air Force Advisor personnel assigned for duty with the New Mexico Air National Guard is to advise and assist the Air National Guard in the attainment and maintenance of prescribed efficiency standards. This mission is presently being accomplished by the assignment of one officer and one airman.

## ANNUAL AND INFORMAL INSPECTIONS.

- 1. All units of the New Mexico Air National Guard were inspected by representatives of the Department of the Air Force on 7 March through 12 March 1962, and were given a rating of "Satisfactory." Only two ratings are given, Satisfactory and Unsatisfactory.
- 2. Members of the inspection team were from 32nd Air Division (SAGE), Air Defense Command.
- 3. The personnel of the Office of the Senior Air Force Advisors periodically made informal inspections of the various sections within the New Mexico Air National Guard.

### ANNUAL FIELD TRAINING.

1. A new method of performing Annual Field Training was adopted this year and is known informally as the "Texas Plan." This plan is designed to spread available man power throughout the year in direct support of daily mission requirements. Consequently, officers and airmen may be ordered to field training for periods of one to fifteen days during the fiscal year. Approximately 50% of assigned personnel were utilized in this manner. The remainder performed their Field Training during the normal Field Training period in June at Kirtland Air Force Base.

95

### ANNUAL AWARDS.

1. There are three trophies awarded during each annual field Training period; two of the trophies are awarded to individuals and one is awarded to a section within the unit.

- a. The squadron Airman of the Year Award, donated by Cooks Sporting Goods in 1954, was won by A2C M. A. McNamee this year.
- b. The Aircraft Maintenance Airman Trophy, donated by Snow Construction Company in 1959, accompanied by a two hundred dollar check, plus an all-expense trip for two to Las Vegas, Nevada, for three days, was won by AlC James Sanchez this year.
- c. The Adjutant General Trophy, donated by the Adjutant General of New Mexico in 1960, was awarded to the 188th FIS. This trophy is awarded for outstanding performance by a particular section within the New Mexico Air National Guard.
- d. The 188th FIS was awarded the Flight Safety Award for accident-free operation. This award is given annually by the United States Air Force.

### TRAINING.

- 1. During this reporting period, there has been noted an increase in the numbers of individuals taking advantage of special courses and instruction by which they supplement and complement Squadron and Group training. This is reflected as follows:
- a. 244 Officers and Airmen enrolled in USAF extension courses.
  - b. 16 Airmen attended and completed USAF technical schools.
- c. 17 non-commissioned officers completed the Administrative Supervisors Course.
- d. 16 Officers completed Staff Officers O.J.T. Orient-ation Course.
  - e. 67 Airmen completed USAF Basic Military Training.
- 2. The above training has been instrumental in increasing the Operational Readiness for other than Air Crew members by an overall 10%.

### AIR TECHNICIANS.

1. The number of full time employees for the New Mexico Air National Guard at this reporting period is 182. The payroll for the above technicians is \$1,112,517.98.

# DRILL ATTENDANCE.

July	1961	89.0%	January	1962	95.0%
August	1961	89.5	February	1962	94.0

3.	Equipment	1,455,335.00
	Total Assets	\$28,653,274.00

### INSTALLATIONS SECTION

### CONSTRUCTION

The 81st Congress of the United States made it possible to utilize Federal funds for construction of armories within the States. Construction of armories is generally on a 75% Federal/25% State participating basis.

New Armory construction completed during Fiscal Year 1961 is as follows:

STATION	TYPE	COST	FEDERAL	STATE
Silver City	1-Unit	84,914.00	62,406.25	22,507.75
Socorro	1-Unit	86,551.00	63,727.50	22,823.50
Espanola	1-Unit	95,410.00	63,727.50	34,552.50
Belen	1-Unit	85,272.00	62,695.00	22,577.00
Roswell	2-Unit	159,082.00	105,311.25	53,770.75

Architect-Engineer fees expended during Fiscal Year 1961 is as follows:

PROJECT	TOTAL	FEDERAL	STATE
Silver City Armory Socorro Armory Espanola Armory	3,396.56 3,462.04 3,347.24	2,547.42 2,549.10 2,491,83	849.14 912.94
Belen Armory Roswell Armory	3,410.92 6,042.12	2,558.20 4,531.59	855.41 852.72 2,014.04

New armory construction completed during Fiscal Year 1962 is as follows:

STATION	TYPE	COST	FEDERAL	STATE
Las Vegas	1-Unit	111,904.00	80,420.27	31,483.73
Clayton	1-Unit	94,688.46	70,340.23	24,348.23

Architect-Engineer fees expended during Fiscal Year 1962 is as follows:

PROJECT	TOTAL	FEDERAL	STATE
Las Vegas Armory	6,602.33	4,951.75	1,650.58
Clayton Armory	5,681.31	4,260.99	1,420.32

New armory construction pending completion at end of Fiscal Year 1962 is as follows:

STATION	TYPE	COST	FEDERAL	STATE
Truth or	1		T	-/ /-
Consequences	1-Unit	99,213.13	72,300.48	26,912.65

Architect-Engineer fees pending at end of Fiscal Year 1962 is as follows:

PROJECT	TOTAL	FEDERAL	STATE
Truth or Consequences			
Armory	3,891.08	2,918.31	972.77

Non-armory construction is to be found under that section of this report entitled "U. S. PROPERTY AND FISCAL OFFICER FOR NEW MEXICO."

### FUTURE CONSTRUCTION

It is anticipated that an armory will be constructed during Fiscal Year 1963 at Lovington, New Mexico.

Plans and specifications for a Military Complex have been completed. This complex consisting of an administrative building, U. S. Property and Fiscal Office Warehouse, and Combined Field Maintenance Shop, will be located at Santa Fe, New Mexico. It is anticipated that construction will begin during Fiscal  $^{\rm Y}{\rm ear}$  1963.
